Check engine oil, engine coolant, and windshield washer fluid. Add when necessary. ● Check brake fluid. ● Check the battery condition monthly. aPull the hood release handle under the corner of the dashboard. bLocate the hood latch lever, pull the lever up, and lift up the hood. cWhen finished, close the hood and make sure it is firmly locked in place. Lights (P 452) ● Inspect all lights regularly. Wiper Blades (P 461) ● Replace blades if they leave streaks across the windshield. Tires (P 465) ● Inspect tires and wheels regularly. ● Check tire pressures regularly. ● Install snow tires for winter driving. 15 CR-V-31T0A6300.book 22 ページ 2015年2月2日 月曜日 午前10時35分 Page 30 of 53329 uuFor Safe Driving ulmportant Safety Precautions Safe Driving ■Pay appropriate attention to the task of driving safely Engaging in cell phone conversation or other activities that keep you from paying close attention to the road, other vehicles , and pedestrians could lead to a crash. Remember, situations can change quickly, and only you can decide when it is safe to divert some attention away from driving. ■Control your speed Excessive speed is a major factor in crash injuries and deaths. Generally, the higher the speed, the greater the risk, but serious injuries can also occur at lower speeds. Never drive faster than is safe for current conditions, regardless of the maximum speed posted. ■Keep your vehicle in safe condition Having a tire blowout or a mechanical failure can be extremely hazardous. To reduce the possibility of such problems, check your tire pressures and condition frequently, and perform all re gularly scheduled maintenance. 15 CR-V-31T0A6300.book 29 ページ 2015年2月2日 月曜日 午前10時35分 Page 54 of 53353 uuAirbags uAirbag Care Safe Driving Airbag Care You do not need to, and should not, perform any maintenance on or replace any airbag system components yourself. However, you should have your vehicle inspected by a dealer in the following situations: ■When the airbags have deployed If an airbag has inflated, th e control unit and other related parts must be replaced. Similarly, once an automatic seat belt to nsioner has been activated, it must be replaced. ■When the vehicle has been in a moderate-to-severe collision Even if the airbags did not infl ate, have your dealer inspect the following: the driver's seat position sensor, weight sensors in the passenger's seat, front seat belt tensioners, and each seat belt that was worn during the crash. ■Do not remove or modify a front seat without consulting a dealer This would likely disable the driver's seat position sensor or the weight sensors in the passenger's seat. If it is necessary to remove or modify a front seat to accommodate a person with disabilities, co ntact a Honda dealer, or for U.S. vehicles, American Honda Automobile Customer Service at 800-999-1009 and for Canadian vehicles, Honda Canada Customer Relations at 888-9-HONDA-9. 1 Airbag Care We recommend against the use of salvaged airbag system components, including the airbag, tensioners, sensors, and control unit. 15 CR-V-31T0A6300.book 53 ページ 2015年2月2日 月曜日 午前10時35分 Page 80 of 53379 uuIndicators u Continued Instrument Panel *1.Models with the smart entry system have an ENGINE START/STOP button instead of an ignition switch.
